SUMMARY

I love coding and developing new software because I enjoy the feeling of creating something from nothing. I've been attracted from computers since my childhood, and for this reason I decided to study Computer Science in high school and also at the university. I started working as an IT Consultant, but my dream was to become a software developer. So I continued coding and learning on my own during my free time until I made it. Since then I've always continued learning new things and working hard day by day to produce the best code.

I evaluate new oppurtunities if they can make me grow as a developer with always in mind my objective: to build great software to be proud of.

MAIN SKILLS

Skills

Eager to learn, team working, adaptable to change, problem solving

Main knoledge on

Main knowledge on: Java, REST API, Linux, Docker, Kubernetes, Gradle, Jenkins, JUnit, Git, JavaFX, PostgreSQL, Liquibase, Design Patterns, CI/CD, TDD, IaC, Microservices

Languages

Italian (Native speaker), English (Intermediate knowledge), Spanish (basic knowledge)

WORK EXPERIENCE

January 2017 – Present

Java Software Developer

Giuffrè Francis Lefebvre

- Designed and implemented the backend logic and REST API of a web application which allows lawyers to fill-in legal acts, attach documents, and send them to law courts (redattore-web).
- Use of "infrastructure as code" through the creation and deployment of yaml files to define kubernetes objects used in production environments (deployments, services, ingresses, configmaps, etc..).
- Configuration of CI pipelines using Jenkins and Gitlab.
- Management of Linux servers hosting services, or "test" and "staging" environments.
- Developed and mantained a multiplatform desktop software which allows lawyers to manage data and send notifications to courts using Java and JavaFX (redattore-desktop).
- Creation and mantainance of Gradle scripts.
- Implemented backend features and tests for a cloud-based ERP with several thousands users (www.clienspiu.it).

April 2011 – January 2017

IT Consultant

Giuffrè Editore S.p.a - Giuffrè Informatica S.r.l., Macerata (Italy)

- Customer support through remote software.
- Software setup, network configurations, customers backup management.
- Bug report and software quality assurance.

May 2010 – November 2010

Junior System Administrator

Punto Prog S.n.c., Potenza Picena (Italy)

- Linux servers management.
- System monitoring and hardware management.
- Backup management.

EDUCATION

2008–2013	**Bachelor's Degree, Computer Science**
	University of Camerino, Camerino (Italy)

2002–2007	**High School, Computer Science**
	I.T.I. Montani Fermo, Fermo (Italy)

OTHER SOFT SKILLS

Communication skills
- Good communication skills acquired during my IT Consultant job, through the direct interaction with customers.

Organisational / managerial skills
- Ability to meet deliveries and commit my tasks before deadlines.
- Management and organization of people working in my team (junior devs, other external developers)
- Flexibility and predisposition to team working.

OTHER TECHNOLOGIES USED

Technologies
AWS, Spring Boot, RabbitMQ, Elasticsearch, Javascript, React and HTML + CSS basics, Android SDK, SQLite, Hibernate, GWT, VERT.x, Jira, Wordpress, C, Bash.

IDE'S
Intellij, Netbeans, Android Studio, Visual Studio Code

CERTIFICATIONS

Docker/Swarm/Kubernetes
Docker Mastery: with Kubernetes + Swarm from a Docker Captain (Udemy - Jun 2023)
https://www.udemy.com/certificate/UC-ece2692c-5036-402b-b545-5db645bc6700/

Kubernetes
Kubernetes for the Absolute Beginners - Hands-on (Udemy - Apr 2022)
https://www.udemy.com/certificate/UC-f5e57ee5-18f7-4a9d-84a4-2fae1d963bca/

Liquibase
Liquibase Fundamentals Certification (Liquibase - Jan 2021)
https://www.credential.net/4b9cc5b4-89b1-48da-a093-698214c744f0

Javascript
Javascript: Understanding the weirds parts (Udemy - Dec 2017)
https://www.udemy.com/certificate/UC-5G4CQKDM/

Android
Programming Mobile Applications for Android Handheld Systems (Coursera - Nov 2015)
https://www.coursera.org/account/accomplishments/certificate/GHABKTPTTG

ADDITIONAL INFORMATION

Projects
www.infoeinternet.com (2008-2017)
(domain expired but visible at https://web.archive.org/web/2019*/infoeinternet.com)
Infoeinternet was a tech blog I created using Wordpress. It contained news, free tutorials and articles relating to IT and technology written by me and other people. The blog reached 2000 visits per day.

Publications
Italian Tutorial for the installation of Apache OpenMeetings on Windows and Linux O.S.
https://cwiki.apache.org/confluence/display/OPENMEETINGS/Tutorials+for+installing+OpenMeetings+and+Tools

Thesis
Web Conferencing Systems and Apache Openmeetings Case Study
